Dr. Lawrence Watson  
Chief, Environmental Management  
March Air Force Base  
722 SPTG/CEV  
March AFB, CA 92518

Re: Certification of Violation Correction for March Air Force  
Base, Moreno Valley, CA

Dear Dr. Watson:

On April 4, 1995, a hazardous waste investigation was conducted by representatives of the United States Environmental Protection Agency (U.S. EPA) at March Air Force Base, Moreno Valley, CA, U.S. EPA Identification Number CA4570024527. During the course of this investigation, information was gathered in accordance with Section 3007 of the Resource Conservation and Recovery Act (RCRA), as amended [42 U.S.C. 6927].

Pursuant to Section 3008 of RCRA [42 U.S.C. 6928] U.S. EPA required you to correct the identified areas of noncompliance and to submit documentation of their correction to the U.S. EPA within 30 days of your receipt of the Warning letter and inspection report sent on April 28, 1995 .

The facility's subsequent response, dated June 1, 1995 adequately addresses the violations and documents the facility's return to compliance with the regulations cited in the inspection report. This letter shall not be construed as a determination by U.S. EPA of your compliance with any other applicable regulations.

March Air Force Base should continue to take the necessary steps to maintain and ensure compliance with all applicable Federal, State and local environmental requirements.

If you have any questions please call Mr. Duong Nguyen of my staff at (415) 744-2130.

Sincerely,

Arlene Kabei, Chief  
Compliance Monitoring and  
Enforcement Section
